

Mini Carousel Note Scrapbook Purse

Quickie Instructions

By Chris Twing, SUI Independent Demonstrator

Tools & Supplies

Stamps: none

Inks: Chocolate Chip Classic Ink

Papers: Afternoon DSP, Very Vanilla, Chocolate Chip, Soft Sky and Groovy Guavava

Other: Love Notes w/Envelopes, Sticky Strip and/or Tombow Multipurpose Adhesive, SNAIL, 1 3/8" Circle Punch, Colluzle Circle Cutting System, Slit Punch, Crop-a-dial, Sponge or Dauber and magnet closure.

Cutting

- Groovy Guava - cut two 3" x 6" (scored at 3")
- Very Vanilla - 1.5" x 6.5"
- Soft Sky - 2.5" x 4"

Step 1

Take the 2.5" x 4" piece of Soft Sky CS and punch out almost a whole circle using the 1 3/8" Circle Punch.

Step 2

Push the Slit Punch in as far as it will go, straight up, and punch. Move the slit punch over to the right, punch and repeat. Do the same for the left.

It should look something like this when you're finished.

Step 3

Cut a circle using the Colluzle Circle Cutter to make a 1 7/8" circle from DSP (Designer Series Patterned Paper). You will be cutting on the third circle from the center

Step 4

Distress the edges of the circle using Chocolate Chip Classic Ink and adhere as shown.

To create the eyelet look use the 1/8" hole punch on the Crop-a-dial. Set the depth gauge to the top to make this easier. Sponge edges of mini carousel note with ink also. Cut another circle, this time using the fourth circle from the center, from Chocolate Chip CS. Ink the edges using Chocolate Chip and adhere this to the back of the mini carousel note (piece shown here), to cover up the hole.

Note: You will see the Chocolate Chip Circle sticking out. You don't see it in this photo b/c I hadn't put mine on yet (when I took the photo).

Step 5

Put the flat edge at the 1/2" mark on your paper trimmer. Score (be sure to use a SCORING BLADE) and crease using a bone folder.

Step 6

Cut both the DSP and Chocolate Chip circles even with the Soft Sky Mini Carousel Note flat edge. Then cut the bottom two edges away so they don't stick out when adhered to the envelope.

Step 7

Using Sticky Strip adhere the Mini Carousel Note to the Love Note Envelope. Be sure to adhere it to the bottom front of the envelope as shown.

Step 8

Attach a 6" length of Chocolate Chip Poly Twill using Sticky Strip. Then add Sticky Strip to the envelope flap.

Step 9

Adhere the 1.5" x 6.5" piece of Very Vanilla to the envelope flap.

Step 10

Turn everything over. Add more Sticky Strip to the inside of the envelope flap. Adhere the second envelope, as shown below. Add more Sticky strip to the flap of the second envelope and then fold the Very Vanilla over the two envelope flaps. Trim any excess.

Step 11

Cut two pieces of DSP to 2 7/8" x 2 7/8". Ink edges and adhere to outside of both envelopes.

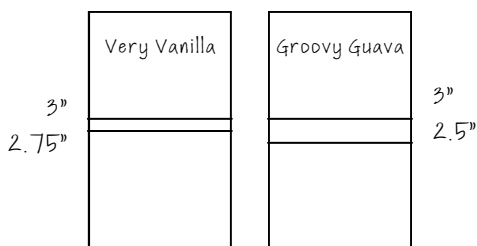

Step 12

Pull out all the Love Notes (3 Soft Sky, 2 Very Vanilla and 2 Groovy Guava.) You will need to make the two Groovy Guava ones by cutting the CS to 6" x 3" and scoring at 3".

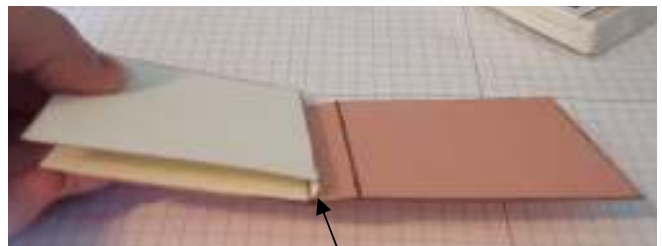

Cut one of the Soft Sky Love Notes in half, on the prescored line. Creating two 3" x 3" pieces of CS. Leave the other two as they are.

Score one side of each of the Very Vanilla Love Notes at 2.75". Score one side of each of the Groovy Guava Love Notes at 2.5"

Step 13

Put adhesive on the smaller/left side of the Groovy Guava Love Note. Layer the Very Vanilla Love Note on top.

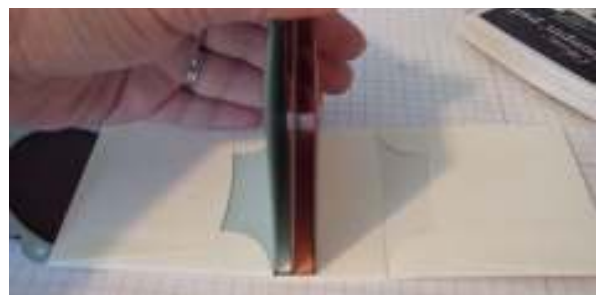

Put Sticky Strip (I cut mine in half so it is only 1/8" wide on the spine of the Very Vanilla Love Note) and adhere to the Guava.

Step 14

Put adhesive on the smaller/left side of the Very Vanilla Love Note and adhere the Soft Sky Love Note. Notice the 1/4" showing on the right side.

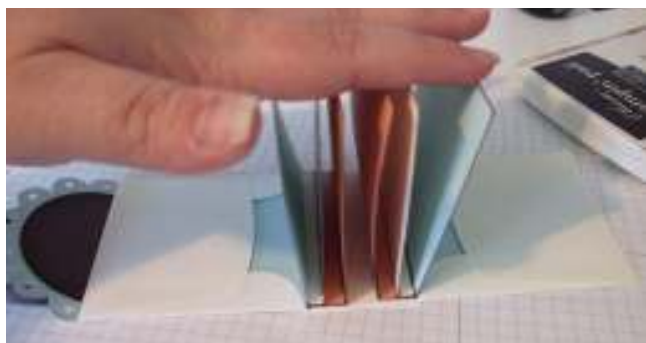

Slide the threesome into one of the Love Note Envelopes on the purse. Here is what the three together should look like from the side.

Add Sticky Strip to the spine of the Guava Love Note to hold the threesome in place. Repeat for the second set and place in the right envelope.

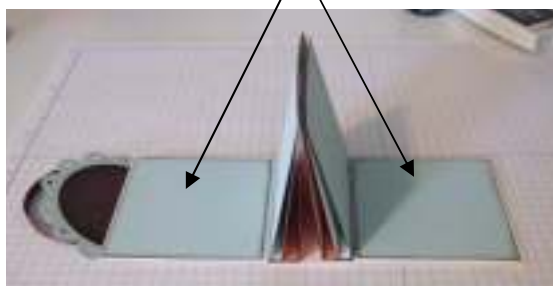

Step 15

Repeat for the second set and place in the right envelope. It should now look like this.

Step 16

Using Sticky Strip, adhere the two halved Soft Sky Love Notes over the left and right envelopes.

Now you have 14 tiny pages to scrap to your heart's content.

Oh, and add a magnet closure.
